George P. Burdell
Software Engineering Department
White and Gold
801 Atlantic Drive
Atlanta, GA 30332

Dear Mr. Burdell,

I am writing to you to express interest in a summer internship position as a Software Developer at White and Gold. I am a Computer Science Major at the Georgia Institute of Technology, and considering my previous experience and relevant skills, I believe I am an excellent fit for the role.

I am already familiar with many different programming languages and technologies, including Java, Javascript, Android, React JS, and C/C++. Furthermore, I have previous experience in the field of Software development through an internship I completed in the summer of 2018, where I worked on the company's android payment application, along with editing its Wordpress site.

In addition to my experiences and skills, I have created two functioning software projects. My Android app, called *Youwatch*, has over 5,000 downloads along with a 4.7 star rating on the Google Play Store, demonstrating my ability to develop complex, high-quality software that can be used in the real-world. I have also developed a complex evolution simulator that is platformed on a Single Page Application online, which demonstrates my abilities in Web Development.

I am drawn to White and Gold because of their presence on the forefront of advances in Software and Big Data, which matches my natural curiosity and thirst for knowledge. Because of my previously mentioned skills, along with my passion for development and technology, I am confident that I will be the best candidate for this opportunity.

I have enclosed my resume, which further details my education, skills, and experiences. I look forward with the opportunity to talk with you further. Please reach me by email at tkamat3@gatech.edu, or call me at (904) 615-0242. Thank you for your time, and I look forward to hearing from you soon.

Sincerely,

Tushaar Kamat
